ASSOCIATE DIRECTOR

Rita F. Reis

Washington Building Congress is a nonprofit association made up of professionals from a variety of disciplines, all with an active interest or involvement in the Washington Metropolitan Area's real estate, design, and construction community. The organization was established in 1937 to represent the collective interests of its members by providing education and networking opportunities and by promoting the advancement of the building industry. For additional information about membership, joining a committee or the WBC Bulletin, call (202) 293-5922 or visit us on the web at www.wbcnet.org.

Bulletin is published 6 times a year by Washington Building Congress, Inc. The articles in this publication are the opinions of the authors and do not necessarily represent or reflect the policies or opinions of Washington Building Congress. Copyright 2020. All rights reserved.

In this special edition of the *Bulletin*, we proudly feature the 64th annual WBC Craftsmanship Awards program. This year, 85 winning entries were selected from the 259 outstanding nominations received. Over 1,100 people have viewed the spectacular awards video presentation recognizing the outstanding work of over 400 individual men and women. We also inducted another Craftsman Hall of Fame class and announced the three Star Award winners. Over 12,000 men and women have won Craftsmanship Awards over the last 64 years and there are now 44 proud members of the Craftsman Hall of Fame. I want to thank everyone who supported this great industry event, especially our deserving craftsmen and generous sponsors. A complete list of current and past winners is available at wbcnet.org and the 2020 Craftsmanship Awards video is still posted for viewing on [YouTube](https://www.youtube.com).

I would like to personally recognize the 2020 Craftsmanship Awards Committee, Board Liaison and Chair Greg LaRosa (Dynalectric Company) and Vice-Chair Joe Dabbs (IBEW Local # 26) for an impressive year under very challenging circumstances. Thank you also to all of the judges and volunteers who help make this event a tremendous success. The WBC Craftsmanship Awards program is an integral part of our industry and sets the association apart from other commercial construction organizations.

Please also take a moment to enjoy the annual WBC Golf Outing segment recognizing our great sponsors and tournament winners. I would like to provide special acknowledgment to Tournament Sponsor Siemens Industry for their ongoing top level support of this event. 288 players came out for a sunny day of golf on September 21, followed by the excellent outdoor awards reception at The Golf Club at Lansdowne. Thank you to the Golf Outing Committee and Co-Chairs Brian Lockwood (Graham Architectural Products) and Bill Voigt (Siemens Industry), along with Board Liaison Tara McCarthy (Accumark), for overseeing the rescheduled tournament this year.

Unfortunately, we were not able to hold the 83rd annual Fall Kickoff and installation of the FY'21 board of directors this September at Columbia Country Club. The exciting news is that WBC has scheduled a combined Fall Kickoff Oktoberfest event for Thursday, October 15. This live networking event is being held at Continental Beer Garden in Rosslyn, Virginia. This will be an all outdoor event with facemasks and social distancing guidelines in place. Attendance will be limited to 125 people in order to keep the group spread-out. The venue can easily accommodate over 250, so we will have plenty of room.

WBC plans to move forward cautiously with live programs over the next several months. I look forward to seeing you in the near future at a WBC event. Thank you for your active participation and ongoing support of our great association during these challenging times.

Best regards,

Brett Snyder

Industry Report

Glass Projects Resource, Inc. Announces New Leadership

Khalil Gabriel Rouhana

Glass Projects Resource, Inc., a leading glass and glazing company, has announced that **Khalil Gabriel Rouhana** has been promoted to the position of President. Mr. Rouhana

co-founded GPR in 2005 and has served as Executive Vice President since its inauguration.

Mr. Rouhana has provided exemplary leadership at GPR to generate business leads and foster relationships with owners, developers, and general contractors. He will continue to oversee operations at GPR headquarters in Sterling, VA and the full-scale manufacturing facility in Berryville, VA.

The announcement of the new leadership comes at a pivotal time of growth and expansion for GPR. In recent years, GPR has experienced significant growth through focused efforts to improve upon the glass and glazing processes in the metropolitan Washington, D.C. area. Mr. Rouhana is also the co-founder of GPR's sister company, LGV Group LLC, a Northern Virginia based commercial real estate developer. He has served as the developer's managing principal since its founding in 2010. LGV Group is now leasing office space in its recently completed building, Broderick One, in Sterling.

The company also announced the appointment of **Jared Smith**, Senior Project Manager, to the position of Vice President.

Based in Sterling, VA, Mr. Smith has been with GPR for eight years. Mr. Smith joined GPR in 2012 as a Project Manager and was promoted to Senior Project Manager in 2015. He has been an integral part of GPR's glass and glazing services in the metropolitan Washington, D.C. area. Mr. Smith has assisted in establishing positive relationships with owners, developers, and general contractors in the field of building enclosures and interior glazing projects.

Industry Report

GHT Limited Announces Senior Leadership Transition and 19 Promotions

GHT Limited, a leading MEP engineering firm in the metropolitan Washington, D.C. Area is pleased to announce that **Patrick Kunze** will assume the role of President. His duties include overseeing GHT's delivery of high-quality services from start to finish. As a key component of the company's succession plan, Patrick assumes the role of President after serving as Senior Principal for the last seven years and Studio Leader for GHT's thriving Interiors division.

As President, Patrick will lead the daily internal and external operations of the company, including Project Management, Accounting, Human Resources, Marketing and Information Technology. Patrick Kunze transitions into the role of President from Paul O'Brien, PE, LEED AP ID+C, who served as the firm's President since 2000. GHT Limited has been consistently recognized as a Top 100 MEP Giant nationwide, as well as a Top 20 local engineering firm by the Washington Business Journal and is currently celebrating its 55th year in business.

The firm also proudly announces the promotion of two new principals, six new senior associates, and eleven new associates.

New Principals

- **Kristine Barr, CDT** – Director of Project Management and Administration | Corporate Leadership Studio
- **Cindy Weeks** – Accounting Manager | HR & Finance Studio

New Senior Associates

- **Derek Gallardo, LEED AP, Fitwel Amb.** – Director of Business Development | Business Development Studio
- **Brian Hackett** – CADD Specialist | Technology Studio
- **Iлона Johnson, PE, LEED AP, CEM, CBCP** – Project Manager/Mechanical Engineer | Building Systems Studio

THE 64TH ANNUAL

CRAFTSMANSHIP

AWARDS

The 64th Annual Washington Building Congress Craftsmanship Awards recognizes the individual skills of the hardworking men and women in the building industry. Unfortunately, due to restrictions on the size of the audience, the March 13 awards banquet was canceled. Instead, a professionally produced video program was created featuring all of the components of the live event, including well deserved recognition of our sponsors, opening video, Hall of Fame induction tribute, recognition of individual Craftsmanship Award winners, Star Awards nominee videos and announcement of the three Star Award winners.

Click on this link to view the complete video presentation of the 64th Annual Craftsmanship Awards.

2020 CRAFTSMAN HALL OF FAME INDUCTEES

Jose "Pifas" Ambriz

SITE WORK

Brett Snyder, the Washington Building Congress (WBC) 82nd Chairman of the Board, introduced the video. "I would like to congratulate all of the 2020 winning craftsmen and thank our outstanding sponsors, nominators and the Craftsmanship Awards Committee. I would also like to thank our membership whose ongoing support and participation make this event possible," said Brett Snyder.

Since the inaugural awards ceremony in 1956, the Craftsmanship Awards program has become one of the most recognized events in the industry. More than 12,700 men and women have been recognized for their craftsmanship on more than 3,300 winning entries.

Up to five deserving craftsmen or women may be nominated by the WBC Craftsmanship Awards Committee and approved by the WBC Board of Directors to be inducted in the Craftsman Hall of Fame. Selection of the Hall of Fame inductees is based on the number of awards an individual has received, the individual's time in the building industry, and other factors that may be relevant.

For the 2020 Craftsmanship Awards, WBC received 259 nominations in 10 trade categories from sitework to finishes. With the outstanding support of 172 volunteer judges, 39 teams went out in early-January to evaluate the entries. The evaluations were compiled, results tallied, and 85 winners were selected based upon the judge's scoring.

Sixteen firms had winning craftsmen for two or more projects. Teams from Dynalectric Corp. and JE Richards were each recognized for four projects. Overall, 24 general contractors were represented in the awards.

This year, the eight Star Award nominees were selected from the 85 Craftsmanship award winners. In 1992, WBC Past Chairman Darrel Rippeteau created the Star Award to recognize craftsmen who exhibited the highest level of expertise in their trade. Nominated craftsmen are selected by a separate panel of three judges and have exceeded established criteria to achieve a level defined as "Exceptional" in one of the Star Award categories.

A complete listing of the winning projects follows, and a complete list with project descriptions is available online at www.wbcnet.org.

Congratulations to all of this year's winners!

Brett Snyder, WBC's 82nd Chairman of the Board, hosts the awards presentation video.

The awards presentation began with the induction of the 13th WBC Craftsman Hall of Fame class. Established in 2008, the Hall of Fame prominently recognizes the best craftsmen in our industry and currently has 41 exceptional members.

THE

STAR AWARDS

The Star Award for Excellence in the Face of Adversity

goes to **Deybi Andrade, Antoine Boykins, Benji Coffey, Ron McKinney, Robinson Whitaker and Dennis Wilson** with **J.D. Belfield Enterprises, LLC** for **Scaffolding** constructed for the **National Air and Space Museum Revitalization**.

The Star Award for Technical Excellence

was presented to the team of **Jason Courtney, Charles DePhillip, Eric Figueroa, Matthew Hallahan, Richard Henry, Kenneth Higgins, Francis L. Martin, Michael Simonds and Aaron Stepler-Krieg** of **JE Richards** for both **Lighting Systems and Special Systems** work installed at **Kennedy Center The REACH**.

The Star Award for Visual Excellence

was awarded to winning craftsmen **Nelson Delgadillo, Carlos Gomez, Frank Hockman, Mike Reiff, Arunas Sopa and Hung Vo** of **Gaithersburg Architectural Millwork** for exceptional **Architectural Millwork** at **Portals V**.

An advertisement for Crystal Steel Fabricators Inc. The ad is a collage of images showing steel fabrication work, including a worker welding, a close-up of a spiral staircase, a large industrial building, a modern architectural structure, a bridge under construction, and the MGM logo. The text 'CRYSTAL STEEL FABRICATORS INC.' is at the top. Below it, the text reads 'THE RIGHT CHOICE FOR JOBS THAT ARE...'. At the bottom, the words 'MONUMENTAL', 'BEAUTIFUL', 'TOUGH', 'FAST', 'BIG', and 'COMPLEX' are arranged in a grid. Contact information is provided in a box on the left.

SIEMENS
Ingenuity for life

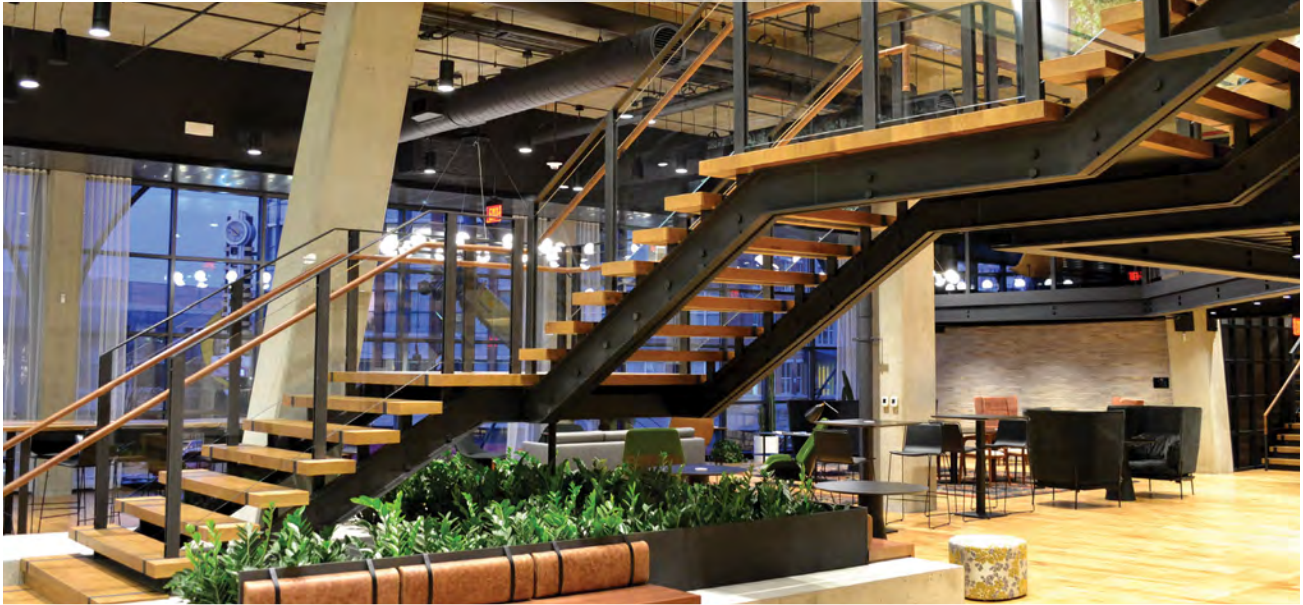

Ingenuity for life creates perfect places.

We spend around 90 percent of our lives indoors. So buildings are far more than just four walls. At Siemens, we make those experiences better by making those places more comfortable, safe, secure and sustainable. It takes Ingenuity for life to create these perfect places – to give people a place to achieve their most ambitious goals, to give them a place where they can be successful and live the life they want.

New Members

region. Its core business is focused on developing client, design team and contractor relationships. Along with their clients, Therrien Waddell, Inc. believes its subcontractors, consultants, and design teams should be their lifelong partners in success.

Stocks Management Group

Stocks General Contractors dba Stocks Management Group is an emerging, small, minority, and veteran owned construction company serving the District of Columbia, Maryland, and Virginia.

The company specializes in civil construction, specifically wet and dry underground utilities. Well known for their industry knowledge and safe delivery, the firm takes pride in completing projects within the scheduled time frame. They have built ironclad relationships with many utility owners and are able to navigate the underground utility community to facilitate a projects' success.

Stocks Management Group is the utility contractor of choice for general contractors, developers, government (state, federal, and local), large utility contractors, and private clients. Its staff has in excess of 20 years of construction expertise and have multiple certifications.

Stream Realty Partners

Stream Realty Partners is one of the fastest growing tenant rep, leasing and management companies in the nation, with over \$2.4 billion in real estate transactions annually

Tejy Inc

A WBE/ MBE business helping contractors, owners, and consultants for BIM - Modeling and construction management. [F](#)

Member Projects

WCS Selected by Wesley Housing to Build The Arden

WCS Construction, LLC has been selected by Wesley Housing to build the next critical phase of **The Arden**. A 126-unit, 210,331 sf multifamily development to be located a block from the Huntington Metro Station. The \$59M project will provide quality homes for working families in Fairfax County and is designed for long-term sustainability of the property at standards comparable to other properties in the market area and will remain committed to affordability for 30 years. The Arden is a seven-story wood frame building with 2 levels of parking underneath. The building also includes a small fitness center, amenity room and outdoor courtyard with designated office space for Wesley Housing.

The project has targeted a Gold Certification with Earthcraft with a completion date of August, 2022. [F](#)
