## Chairman's Letter

Dear Members and Colleagues:

It is my honor to present the 60th annual WBC Craftsmanship Awards special edition of the *Bulletin*. This year 84 winning entries were selected from the 288 nominations received. Close to 1,100 industry representatives gathered in March to individually recognize the work of over 400 dedicated craftsmen. We also inducted another group into the Hall of Fame and announced the Star Award winners. Over 10,000 men and women have won Craftsmanship Awards over the last 60 years and there are now 33 members of the Hall of Fame, which was established in 2008. I want to thank everyone who attended and supported this significant industry event, especially our outstanding craftsmen and sponsors. A complete list of current and past winners is available on the WBC website, [www.wbcnet.org](http://www.wbcnet.org).

I also have some exciting news regarding the Craftsman Hall of Fame exhibit to be housed at the new WBC office. The emotion you feel when you see the induction ceremony during the awards banquet is what we are planning to convey with an interactive video wall and tribute. Construction of the space is planned to start this spring with a fall grand opening. To sustain this noble cause, we need your support. Giving levels are being established and several firms have expressed interest. Please consider supporting this initiative. Further information regarding the Craftsman Hall of Fame fundraising campaign will be announced soon.

I would like to personally recognize the 2016 Craftsmanship Awards Committee, Chair Nik Salvi (Forrester Construction), Vice-Chair Shawn Fenstermacher (Siemens Industry), and Board Liaison Julie Forsht (Powersmiths) for a job well done. Thank you also to all of the judges and volunteers who help make this event run smoothly. The Craftsmanship Awards and Hall of Fame continue to reach new levels each year and the 2016 program was another amazing salute to our industry.

The Community Services Committee is holding a Rebuilding Together Workday in Vienna, Virginia on Saturday, April 30. We are expecting over 40 volunteers to join us for this special day of giving back to those less fortunate in our community. The June-July *Bulletin* will highlight all of the individuals and companies involved with the project and feature some enjoyable photos from the workday. Special thanks go to the Community Services Committee, Chair Ken Ellis (Langan), Vice-Chair/House Captain Chris Deraleau (PS Business Parks), and Board Liaison Pat Mercer (Siemens Industry).

The Membership Services Committee hosted the successful St. Patrick's member recruitment event in March at McGinty's Public House. Over 40 people also attend the new member orientation breakfast at the WBC on April 1. Thank you to the Membership Services Committee, Chair Tara McCarthy (TRINITY Group Construction), Vice-Chair Gary Cooke (Natelco Corporation), and Board Liaison Greg Koger (Holland & Knight) for their commendable work towards achieving our retention and new member goals this year.

Please mark your calendars now for the 79th annual WBC Golf Outing on Monday, June 6, at Lansdowne and Belmont golf clubs. Also take a moment to consider the sponsorship opportunities available for this premiere industry event, considered by many to be the best tournament of the year. Thank you to 2016 Tournament Sponsor Siemens Industry for their ongoing support. This is an excellent opportunity to showcase your business, entertain clients, and reward key employees. If you are not a player, please join us for the awards reception following the tournament at The Golf Club at Lansdowne.

I look forward to seeing you at an upcoming WBC program or event. Thank you for your active participation and ongoing support of our great association!

Best regards,

**John Barron**

## Stevenson, Hendricks, Stansfield, and Wille Named GTA Vice Presidents

Geo-Technology Associates, Inc. (GTA) recently promoted **Sam Stevenson**, **Andy Hendricks**, **Andy Stansfield** and **John Wille** to vice president.

*Sam Stevenson*

Stevenson has 25 years of project management experience in numerous aspects of environmental investigation, remediation, hazardous waste characterization and disposal, and project planning. He joined GTA 19 years ago, and as vice president is responsible for managing the environmental services division of GTA's Laurel, Maryland office.

*Andy Hendricks*

As vice president, Hendricks is responsible for environmental work performed out of GTA's Sterling, Virginia office. He has 25 years of experience (13 with GTA) achieving environmental solutions with clients in the telecommunications, banking, real estate, insurance, legal, and industrial communities.

*Andy Stansfield*

In addition to vice president, Stansfield is Natural Resource Group Leader at GTA's Abingdon, Maryland office. With 14 years of experience, he is responsible for

supervision and execution of natural environmental services including: wetland delineations, forest stand delineations, forest conservation plans, GPS location of environmental features, federal and state permit processing, and mitigation planning and design. Andy has experience with the U.S. Army Corps of Engineers (USACE), Section 401 & 404 Permit processes, including state permitting in Maryland, Delaware, Pennsylvania, and Virginia.

*John Wille*

With over 22 years of experience, John Wille is a Vice President at GTA Associates, Inc.'s Charlotte, North Carolina office. He is responsible for managing and supervising the geotechnical department as well as the construction observation and testing staff.

## McCarthy Joins Tishman

J.J. McCarthy

Tishman Construction Corporation announced that **J.J. McCarthy** has joined its Mid-Atlantic Regional Office as vice president of preconstruction and estimating.

In his new role, McCarthy will bolster Tishman's local capacity and resources, strengthening relationships with its clients and creating new opportunities by providing full-service preconstruction and estimating services. A native of McLean, Virginia, he graduated from Virginia Tech with a Bachelor's of Science in Building Construction, and then earned a Master's Degree in Building Construction from the University of Florida.

Over the past 28 years, McCarthy has gained first-hand experience building projects as a general contractor at-risk, design-build contractor, construction manager, and Owner's agent. He is a proven leader who is well-known and respected in the local construction community.

## Insurance Associates Acquires Allegiance Surety Associates

Insurance Associates (IA) recently acquired Allegiance Surety Associates. Allegiance is a leading bonding firm located in Laurel, Md., providing bonding services to the construction and real estate development industries.

Allegiance brings six employees to IA with a specialization in writing bonds for residential and commercial developers as well as general contractors and subcontractors. Their knowledge of the local real estate development community enhances the depth of IA's contract surety practice and significantly adds to the subdivision bond portion of our business.

IA will maintain the office in Laurel as their third full service office to serve its clients, and welcome Art Jones and his team to Insurance Associates.

## SIGAL Welcomes Abbott as Director of Project Development

Mark Abbott

SIGAL Construction Corporation has hired **Mark Abbott** as its director of project development. In this role, Abbott is responsible for business and relationship development on

behalf of the company.

With more than 20 years of experience in the construction services industry, Abbott has a solid, well-rounded background in executing sustainable growth strategies and spearheading project management initiatives. His long-term representative clients range from local organizations to international companies and Fortune 500 clientele.

Abbott holds a Masters of Business Administration degree from Marymount University and a Bachelor of Arts degree from Virginia Tech.

## Laudenberger Named Partner of Councilor, Buchanan & Mitchell, PC

Keith Laudenberger

Councilor, Buchanan & Mitchell, PC (CBM) recently announced the appointment of **Keith Laudenberger, CPA**, as partner.

Laudenberger has 20 years of public accounting experience providing services to the automotive industry, construction, real estate and technology companies as well as not-for-profit organizations and government contractors. He has experience working with businesses of all size including family and closely held businesses.

He serves on CBM's Automotive Industry Committee and works with large and complex dealer groups, providing them with a range of services including audit and assurance services, consolidated financial reporting,

consolidated federal tax, and multi-state tax services. Laudenberger has worked on dealership engagements that represent most manufacturers. In that capacity, he is involved in all phases of the engagement management including planning, preparation, reviewing and consulting.

## GORDON Promotes Berg

Jessie Berg

GORDON announced the recent promotion of **Jessie Berg, PE**, to Director of DC Land Development. She will now be responsible for growing GORDON's private sector presence

within Washington, DC, in addition to her current role as project manager.

Originally hired as an intern in 2006, Berg quickly rose to supervisory and management positions. She obtained her Professional Engineer license in June of 2014 in the Commonwealth of Virginia and the District of Columbia in 2016. She received a civil engineering degree from the Virginia Polytechnic Institute and State University in 2008 where she was also involved in Alzheimer's research fundraising and on-campus community service support and outreach.

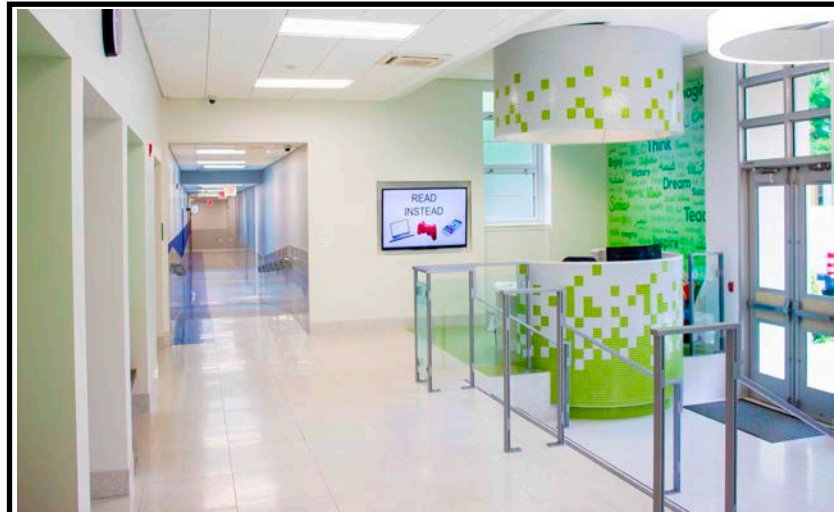

## McCarthy named Director of Business Development at TRINITY Group Construction

Tara McCarthy

**Tara McCarthy** has joined TRINITY Construction Group as director of business development, where she will oversee marketing, sales and business development activities nationwide.

McCarthy is the Chair of the Membership Committee for the Washington Building Congress (WBC), Past President for the DC Chapter of SMPS,

and a member of the Communications Committee for CREW DC. Before joining TRINITY, McCarthy was business development director at BE&K Building Group, a national construction management firm located in McLean, VA. Previously, she was business development director at ECS Mid-Atlantic, an engineering consulting firm located in Chantilly, VA. McCarthy holds a B.S. degree in marketing and public relations from Florida International University.

## Councilor, Buchanan & Mitchell Celebrates Milestone Anniversary

Councilor, Buchanan & Mitchell, PC (CBM) announced the achievement of another huge milestone: its 95th anniversary.

The firm was founded in 1921 by James A. Councilor Sr., who left his position as head of the Consolidated Returns Division of the U.S. Bureau of Internal Revenue (known today as the Internal Revenue Service) to form an accounting firm that would assist companies and individuals with the new income tax process the government had recently established.

Since its inception, the firm has experienced steady and continuous growth. Over the years, new partners joined the firm and the name changed several times, eventually evolving to its current name—Councilor, Buchanan & Mitchell, PC—in 1961. Today, CBM boasts seven partners, 56 professional and administrative staff members, and two convenient locations: Bethesda, Maryland and Washington, DC.

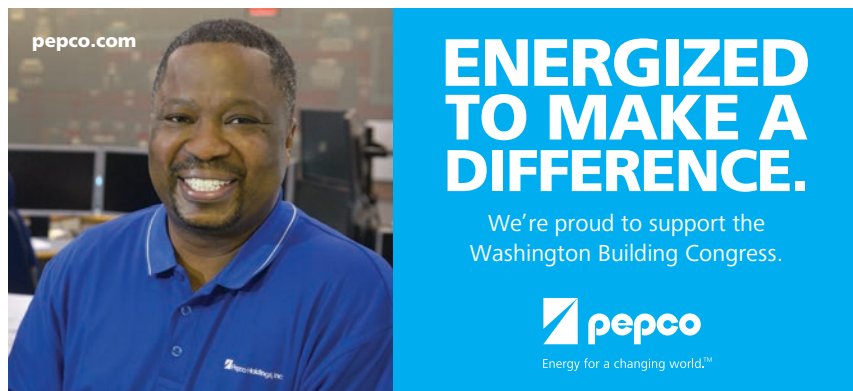

Damiecki Elected President of Greater Washington DC Chapter of CFMA

CohnReznick LLP announced that Scott Damiecki, CPA, CCIFP, was recently elected President of the Greater Washington DC Chapter of the Construction Financial Management Association (CFMA). Damiecki is a director in the firm's Bethesda, MD office and a member of the Construction Industry Practice with more than 17 years of experience providing assurance, tax, and consulting to construction clients.

Damiecki has been an active member of the Greater Washington DC chapter of CFMA since 2005 holding multiple positions with the organization, including serving as vice president for the last year and as a program committee member for three years. His term as president will continue for a minimum of one year with an option for a second year.

## Plaza DC Office Has Moved

Plaza Construction announced that its DC Office has moved to 1250 Eye Street, NW, Washington, DC 20005. Their phone number is 202-864-0000.

## MADE IN AMERICA

*"If you can draw it,  
we will build it. In steel."*

Dakota Brewer. Dale Brue. Steel Fabricators. "You got to appreciate what you do, and like doing it," Brue says. "Otherwise, what's the purpose? We're tryin' to teach the new guys what we do, and we do it in steel." They lay out beams, holes, cuts, angles and where the plates go on. Fabricate big box beams with three-four-inch flanges. A 29-ton piece not uncommon. Couldn't even tell you how many tons fabricated since 1976 when Dale started at Zalk Josephs Fabricators. He gets up early. 3 AM. Never been late. Never.

They say compound miters are tough, but they handle them. Steel's forgiving. Weld it up, fill in little gaps. Proud of every one of their jobs. Like Ann & Robert H. Lurie Children's Hospital of Chicago. When the boss sold the project, Zalk came up with an innovative scheme: using cables to support the 14th, 15th and 16th floor. Shaved a couple of months off the duration of the project because of it.

Dakota Brewer. Dale Brue.  
Made in America.  
Like the steel they fabricate.

There's always a solution in steel.

## 2016 Annual WBC Craftsmanship Awards

### Washington's Building Industry Gathers to Recognize the Area's Outstanding Craftspeople

Over 1,100 members of the DC area's building industry came together in March to praise the Washington's top craftsmen and women at the Washington Building Congress' 60th Annual Craftsmanship Awards celebration. In the past 60 years, more than 11,400 individuals have been recognized for their craftsmanship on over 3,000 winning projects.

"The Craftsmanship Awards program has become one of the most prestigious events in our industry. It is the only regional program recognizing the individual contributions of craftsmen working on jobsites every day," said John Barron, WBC's 78th Chairman of the Board. "As the awards program has elevated in visibility, WBC's recognition of quality craftsmanship has continued to move forward."

Additionally, up to five deserving craftsmen may be nominated by the WBC Craftsmanship Awards Committee and approved by the WBC Board of Directors to be inducted in the Craftsman Hall of Fame. There are currently 30 members of the Hall of Fame, which was established in 2008.

Selection of the Hall of Fame inductees is based on the number of awards an individual has received, the individual's time in the building industry, and other factors that may be relevant.

The night's three 2016 Hall of Fame inductees were:

- **Scott Pashkevich – Sitework**
- **Wayne Radke – Finishes**
- **Edeline Bush Rhodes, III – Electrical**

Videos of the Hall of Fame Inductees are available at [www.youtube.com/user/TheWBCdc](http://www.youtube.com/user/TheWBCdc)

During the evening, the crowd was informed of plans for a new exhibit coming to WBC's new office, designed to honor the now 33 members of the Craftsman Hall of Fame (see page 27). A fall grand opening is planned for the exhibit which will feature an interactive video wall.

"The emotion you feel when you see the interviews and induction ceremony is what we are planning to convey with the Hall of Fame tribute at the new WBC office," said WBC Past Chairman and Foundation Chairman Tamara McNulty.

Further information regarding the WBC Hall of Fame fundraising campaign will be available soon.

This year, WBC received 288 nominations in 10 trade categories from site work to finishes. With the participation and support of 175 volunteer judges, teams of evaluators went out in early January to evaluate all of the nominated projects. The evaluations were compiled, results tallied, and 84 winning entries were identified based upon the judges' scoring. (A complete listing of the winning projects follows, and a complete list

with project descriptions is available online at [www.wbcnet.org/craftsmanship-awards/current-and-past-winners/2016-craftsmanship-awards-winners](http://www.wbcnet.org/craftsmanship-awards/current-and-past-winners/2016-craftsmanship-awards-winners).)

Very few companies had winning craftsmen on more than one or two projects, however craftsmen from **Freestate Electrical Construction Co.** and **VarcoMac Electrical Construction Co.** were awarded for four projects and craftsman from three of **Miller & Long DC, Inc.**'s projects received praise.

**Clark Construction Group, LLC** was general contractor on 17 projects; **DAVIS Construction** was general contractor on nine projects; and **Clark/Smoot/Russell, A Joint Venture** was general contractor on seven projects.

Following the selection of the award winners, a separate group of Star Award evaluators representing different perspectives and disciplines within our industry was selected to independently evaluate the Star Award nominees. Seven outstanding entries were recommended for this distinction for demonstrating the highest level of quality and exceeding the awards criteria to achieve a level defined as "Exceptional." From these, the Star Award winners for Visual Excellence, Technical Excellence and Excellence in the Face of Adversity were selected. Videos of the nominees are available at [www.youtube.com/user/TheWBCdc](http://www.youtube.com/user/TheWBCdc)

This year, the Star Award for Excellence in the Face of Adversity was awarded to the team of **Josh Craig, Ronnie McFee, Joe McNaughton, Sammy Rojas, Bill Smith,** and **Mikolaj Zak** with **AlphaSteel/SteelFab, Inc.** for **Structural Steel Framing** at **The National Museum of African American History and Culture.**

**Chris Brown, Amado Cortez, Mike Dickerson, John McCarthy, Vern Quesenberry,** and **Tim Ruff** with **Ruff Roofers, Inc.** were honored with the Star Award for Technical Excellence for their **Thermal and Moisture Protection** work on **The Gunston Hall Mansion Roof Replacement.**

Finally, the Star Award for Visual Excellence was presented to **Jeff Benac, John Burroughs, Carrol Gayle, David Holmes,** and **John Yeatts** with **AOC Construction Division** for the **Plumbing** at **The Thomas Jefferson Building Sprinkler System, West Main Pavilion, First Floor.**

Congratulations to all of the evening's winners!

## 2016 CRAFTSMANSHIP AWARDS

# Reduce → Reuse → ReStore

Habitat for Humanity of Northern Virginia operates two improvement resale shops which support our mission to provide affordable homeownership opportunities to our neighbors in need. By donating to our ReStores, businesses:

- Clear excess inventory
- Keep re-usable items out of landfills
- Receive a tax receipt for all donations
- Save time by scheduling free donation pick ups
- Support their local Habitat for Humanity

# 2016 Annual Sponsors

## CORPORATE SPONSOR

Tishman Construction, an AECOM Company, launched its Washington, D.C. Metro Area business in 1989 managing the construction of the Ronald Reagan Building and International Trade Center. Since then, Tishman has built approximately 15 million additional square feet of new construction and renovation projects in the region for a wide variety of public and private sector clients. The firm's full range of services includes general contracting, construction management and pre-construction. For more information, visit [www.tishmanconstruction.com](http://www.tishmanconstruction.com).

*Lendlease Celebrates the Start of Construction for 414 Light Street, Baltimore, MD*

After a required creative review at the end of its marketing contract, **Digestive Disease Week® (DDW)** has rehired **Frost Miller (FM)** to develop promotional materials for the next three events, starting with DDW 2017. Digestive Disease Week is the world's largest gathering of physicians, researchers and academics in the fields of gastroenterology, hepatology, endoscopy and gastrointestinal surgery, attracting more than 14,000 GI professionals. It is sponsored by the American Association for the Study of Liver Diseases (AASLD), American Gastroenterological Association (AGA) Institute, American Society for Gastrointestinal Endoscopy (ASGE), and Society for Surgery of the Alimentary Tract (SSAT). FM, an integrated marketing agency, will design print and digital advertisements, registration brochures, direct mail, on-site programs and other promotional materials. Previously, FM helped rebrand DDW to present a more cohesive image to its constituents and the industry at large.

Additionally, FM was selected to handle digital promotion for the

**Electronic Transactions Association's** annual event for the payments technology industry—**TRANSACT 16**. FM will develop the strategic digital marketing plan and implement a campaign that includes social media and mobile advertising campaigns, organic content on LinkedIn, Facebook, Twitter and Instagram and other content marketing tactics. The tactics are designed to deliver an online experience that its participants enjoy being a part of and also benefit from before and after the event.

**WCS Construction, LLC** has been selected by **Lerner** to construct **Phase III of Windmill Parc at Dulles Town Center**. The third phase of the 112-units will match the original unique designs featuring premium amenities and open floor plans. The community's premier location provides easy access to Loudoun County and Fairfax County employment centers and is walking distance to Dulles Town Center mall – Loudoun County's only super regional mall offering 185 upscale shops and restaurants in 1.4 million square feet of shopping, dining and

entertainment space. The project has a targeted completion date of March 2017.

**Questar Properties** selected **Lendlease** to provide construction management services for of **414 Light Street**, the ultra-luxury 44-story apartment tower on Baltimore's Inner Harbor. In March, Questar, Mayor of Baltimore Stephanie Rawlings-Blake, local business leaders, and Lendlease gathered at the project site to host a groundbreaking ceremony, to mark the beginning of construction. Upon project completion the project will be among the tallest in Baltimore.

The project site is rich in Baltimore's history and was once home to the McCormick Spice factory. However, for more than 20 years the project site was being underutilized, serving as a parking lot. The new tower will have 394-units, six-levels of above-grade parking, over 12,000-square-feet of retail space on the first floor, rooftop amenities such as a pool, grill, gym, and pet spa. The project is targeting LEED-Silver certification upon completion. **B**

## New Member Descriptions

### 3M Electrical Markets

The story of 3M began in 1902, when Minnesota Mining and Manufacturing Co. was established as a mining operation. A few decades later, 3M scientist Don Douglas dropped a rubber band on a hot plate, and Scotch® Vinyl Electrical Tape was born. **3M Electrical Markets** Division's 1,400 employees produce more than 7,000 electrical products across 13 US-based manufacturing plants for the construction, utility, renewable energy, and transmission markets.

### Athena Construction Group, Inc.

**Athena Construction Group, Inc.** is the oldest, largest and one of the most respected SDVOSB, WOB, HUBZone construction company in America. They specialize in general contracting and self-performing the installation of doors, frames, and hardware and drywall. Widely acknowledged for their integrity and ability to complete complex projects, Athena is the company of choice for federal agencies, large general contractors and private clients.

### Cohen Seglias Pallas Greenhall & Furman PC

**Cohen Seglias** is a law firm of more than 60 lawyers with nine offices in Washington, DC, Maryland, Pennsylvania, New Jersey, New York, Delaware, and West Virginia. With attorneys licensed in numerous federal courts and more than a dozen states, the Firm represents clients nationally in a variety of industries ranging from construction, development, real estate, manufacturing, and transportation to higher education, healthcare, and hospitality.

Cohen Seglias attorneys understand the importance of working as efficiently as possible to achieve the best results for our clients. Whether negotiating contracts, handling corporate mergers and dissolutions, drafting commercial documents, trusts, wills, and other estate planning instruments or litigating construction and commercial disputes, our unique team approach to handling matters ensures that the Firm provides service and experience specifically tailored to each client and matter.

### Eklund's, Inc.

**Eklund's** crafts complete elevator cabs and custom elevator interiors. Whether a new construction project or a renovation, Eklund's offers a wide range of custom elevator cab solutions to meet both aesthetic desires and budget requirements. Their total elevator cab solutions include design, manufacturing, and installation of luxury, custom-crafted cabs and interiors, and a wide selection of StreamLine standard cab interiors.

With customers from coast to coast, their elevator interiors are installed in some of the nation's most recognizable properties. Working with architects, elevator consultants, elevator contractors, general contractors, property managers, and building owners, Eklund's transform elevator interior visions into safe, functional, and aesthetically pleasing realities.

Eklund's cab interiors are fabricated in-house and are installed nationwide by their certified WBE installation partner, BCE Specialties. With 33 years of elevator cab manufacturing experience, Eklund's takes pride in offering its customers leading-edge design, quality craftsmanship, dependability, and prompt on-time delivery.

### ServiceMaster National Capital Restoration

**ServiceMaster National Capital Restoration** is a small, woman-owned business specializing in 24/7/365 emergency response for water, fire and biohazard/crime scene clean-up. They offer non-destructive mold remediation, specialty cleaning, post-construction cleaning and odor mitigation.

### Wilson Technologies Inc.

**Wilson Technologies Inc.** is a leading outsourcing firm with strong federal government past performance in reprographics, mail center, logistics, document/records, warehouse and transportation management.

Our actions speak louder than words.
