**CONNECT WITH US:**

## Chairman's Letter

### Dear Members and Colleagues:

Since the beginning of the new membership year last October, WBC committees have been meeting monthly and are moving forward with big plans for 2017. I would like to personally thank our committee members, chairs, vice-chairs, and board liaisons for volunteering their time and expertise. Special recognition also goes to the Membership Services Committee, Chair Gary Cooke, Jr. (Natelco), Vice-Chair Alfredo Llop (K2 Construction Consultants), and Board Liaison Erin Meitzler (Forrester Construction) for their outstanding work on retention this year. The first 2017 new member orientation will be held next month and invitations will be sent to all new members joining over the past year. You are encouraged to join us for this informative session held at the WBC office if you have not previously attended.

I would like to thank the Community Services Committee and all of the WBC member firms who participated in the annual "Members Give Back" edition of the *Bulletin*. I am also pleased to announce that the monthly volunteer opportunity with Foods & Friends has been extended for another year. The committee's next major project will be the April 29 Rebuilding Together Workday. This year's team, led by House Captain Vanessa Carrion (Aerotek), will be reaching out to member firms seeking essential donations of labor and materials starting in March. Thanks again to the Community Services Committee, Co-Chairs Ken Ellis (Langan) and Rob Wenger (WCS Construction), Vice-Chair Vanessa Carrion, and Board Liaison Greg Koger (Holland & Knight) for keeping the momentum going.

The Hammerheads Committee has two exciting events planned for members under 40 years old over the next few months. On February 16, the group is returning to Continental Modern Pool Lounge in Arlington for one of their most popular networking events. The Hammerhead's Potomac River Cruise is planned to coincide with Cinco de Mayo on Friday, May 5. This event is limited to 80 people and has been a sellout the past 4-years. Special recognition goes to the Hammerheads Committee, Chair Elizabeth Justis (Scaffold Resource), Vice-Chair Adam Lackey (Exponent) and Board Liaison Gabriel Jahn (Dynalectric Company) for putting these great events together.

The 61<sup>st</sup> annual WBC Craftsmanship Awards program received a commendable 255 entries this year. I would like to extend special thanks to the 180 construction professionals who volunteered a full day of their time as judges on January 12. Following the day of judging, the Membership Services Committee hosted the Winter Networking event at Maggiano's with over 200 in attendance. We are expecting 1,200 people to join us for an evening of celebration during the Craftsmanship Awards banquet on Friday, March 31. Please take a moment to review the great sponsorship opportunities available for this year's program and be sure to save the date. Thank you to the Craftsmanship Awards Committee, Chair Shawn Fenstermacher (Siemens Industry), Vice-Chair Todd Scales (Manhattan Construction) and Board Liaison Sean Frazier (HSU Builders).

I look forward to seeing you at one of the upcoming WBC events. Once again, thank you to all of our renewing WBC members and welcome to all new members! We look forward to your active participation and ongoing support of our extraordinary association.

Best regards,

**Joe Schall**  
WBC Chairman of the Board

## AllCom Global Services Acquires Delex Fairfax Integrated Security Systems

AllCom Global Services, Inc. (AllCom), a provider of technology infrastructure solutions to the federal market, recently announced the acquisition of Delex Fairfax Integrated Security Systems (DFISS).

With the close of this acquisition, AllCom adds a comprehensive portfolio of technology based physical security systems and solutions including software, hardware products, and certified services from industry leaders such as Lenel, AMAG, Software House, Axis and Exacq Technologies.

“This acquisition significantly expands our capabilities to offer and integrate sophisticated security software and systems into the technology infrastructure solutions we provide to our customers. Physical security is a key component in the engineering and deployment of resilient and secure technology infrastructure, as well as, the on-going protection of mission critical facilities and assets,” said Bob Weatherwax, CEO, AllCom.

DFISS currently supports a variety of large municipal, commercial and Government customers to engineer install and maintain security systems. “Transitioning this business line into AllCom provides a great platform for growth for our current markets, as well as the opportunity to significantly expand our business within the federal Government. The combination of capabilities, customers and past performance creates both immediate synergies and exciting new opportunities,” said Joseph P. Costa, CEO and President of DFISS.

## Shaw Promoted to Vice President

Christopher Shaw

**Jim Anglemeyer**, President of **WCS Construction, LLC**, recently announced the promotion of **Cristopher Shaw** to vice president.

Shaw started with WCS Construction, LLC in January of 2015, and during his short tenure secured a valuable new client for the company. He is currently heading up the WCS project team at WCS' Windmill Parc III project in Dulles, VA., its Pike and Rose Block 6 project in Rockville, MD, and its 901 H Street project in Washington, DC.

Shaw has over 20 years of experience in the local construction market including estimating, project management, site supervision, procurement of new work, and operations management. The types of projects he has overseen and managed include mostly multi-family residential apartments and condominiums, retail, mixed-use, senior living, and commercial office projects.

## Michael Christopher Joins WCS Construction

Michael Christopher

**Michael Christopher** has joined WCS Construction, LLC as Chief Financial Officer to the company, where he will be responsible for the oversight of all accounting and

financial reporting.

Christopher spent eight years in public accounting working within construction industry groups. Prior to coming on board he previously served as the Chief Financial Officer at one of the area's largest utility contractors.

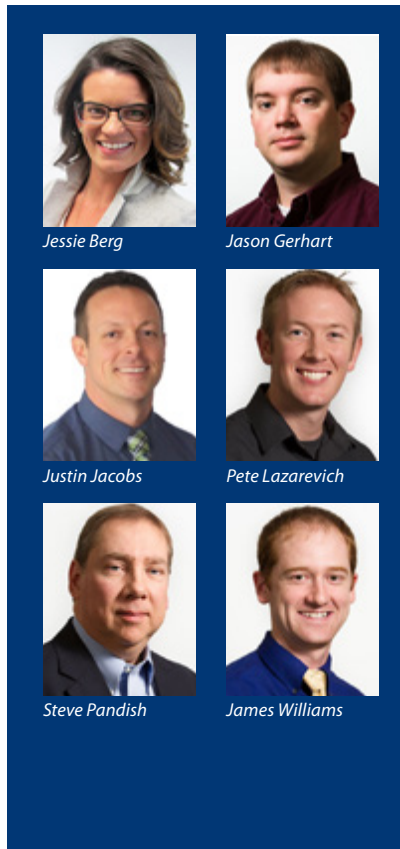

With a direct and hands on approach Christopher will assist upper management and project management teams in streamlining as well as improving processes and work flows to increase efficiencies ultimately allowing the company to be more competitive.

Christopher is a graduate of East Carolina University with a Bachelor's of Science in Accounting and a minor in Construction Management. He is a member of the American Institute of Certified Public Accountants, Construction Financial Management Association, and serves on the Board of Directors for the ABC Chesapeake Shores chapter.

## GORDON Announces Promotions

**GORDON**, a leading SDVOSB multi-discipline design firm with headquarters in Chantilly, VA, appointed the following members of their staff to Senior Associate and Associate level:

- **Steve Pandish**, PE, LEED AP BD+C, Director of Water Resources, named to senior associate

## Promotions Announced at ASM

Christopher Taggi

**Asmar, Schor & McKenna**, PLLC (ASM) announced that **Christopher Taggi** has been appointed as the new Managing Member of the firm effective January 1, 2017. He

succeeds **Susan L. Schor**, Esq. who served as Managing Member since the firm's opening in 2010. ASM greatly appreciates Schor's seven years of dedication as the firm's Managing Member. Taggi will continue to lead ASM's litigation practice and representation of nationally-known home builders, general contractors, commercial owners and developers in all phases of their operations, from contract drafting, to risk management, to litigation and dispute resolution.

David Edelstein

Additionally, **David Edelstein** has been named a Partner at ASM. Edelstein joined the firm in 2010 and has been a rising star in ASM's Construction and Government

Contracts practice groups. He has extensive experience resolving disputes through alternative dispute resolution and through litigation in state and federal courts and the Federal Boards of Contract Appeals, and will continue to concentrate his practice in these areas. Edelstein is a 2007 graduate of the Georgetown University Law Center, and a 2004 graduate of Northwestern University.

## Promotions Announced at The SK&A Group (photos)

The SK&A Group, an award-winning organization providing structural engineering services, recently announced the promotions of several members of their staff:

- **Tom Garman**, Sr. Project Manager
- **Ananth Avadhani**, PE, Project Manager

## Members Give Back

# WBC Member Charitable Giving

The Washington Building Congress is pleased to recognize the remarkable charitable contributions of our member firms and their employees. The extent of our industry's positive impact on the community is far reaching and worthy of acknowledgment. Thank you to everyone who contributed to this special edition of the *Bulletin* and please keep in mind that we would like to feature your company's news and activities over the coming year on the WBC website and in the Bulletin.

WBC provides several outstanding opportunities throughout the year to give back and support our community. The next major charitable activity will be the annual Rebuilding

Together workday project on Saturday, April 29. WBC plans to adopt another house for a deserving family and once again make a positive impact on their quality of life. Please watch for further details regarding the 2017 Rebuilding Together initiative and contact Steve Kenton at the WBC if you would like to volunteer, donate materials or make a monetary contribution.

WBC has also committed to support the outstanding Food & Friend program again this year by providing a group of ten volunteers once a month on the third Saturday morning from 10:00 to 12:00. Volunteers can sign up online at [wbcnet.org](http://wbcnet.org).

Thank you for supporting our community, our association and our industry!

### WBC Community Services Committee

- Rob Wenger, Co-Chair
- Vanessa Carrion, Vice-Chair
- Greg Koger, Board Liaison
- Joe Schall, Chairman of the Board

### Clark Construction Group, LLC

American owned and operated since 1906, Clark Construction Group, LLC, has grown from a small excavating company to one of the nation's most experienced and respected providers of construction services. With annual revenue in excess of \$4 billion, Clark is consistently ranked among the country's largest general building and civil construction companies. Headquartered in Bethesda, MD, Clark has regional offices that are strategically located to serve the needs of clients throughout the United States.

Giving back — it's a core value and an integral part of how we do business. Being a responsible corporate citizen is not just a good thing to do...it's the right thing to do. Through both dollar and deed, we aim to make lasting improvements that will benefit the Washington, DC metropolitan community for years to come. We are proud to partner with these, and many other, extraordinary organizations:

- ACE Mentor Program
- American Cancer Society
- Boy Scouts of America
- Children's National Medical Center
- DC Central Kitchen
- DC SCORES
- Higher Achievement
- Junior Achievement
- Juvenile Diabetes Research Foundation
- Knock Out Abuse Against Women
- Mary's Center
- Samaritan Inns
- So Others Might Eat
- Urban Alliance Foundation

## Members Give Back

David M. Schwarz Architects, Inc.

David M. Schwarz Architects, Inc.

David M. Schwarz Architects, Inc.

David M. Schwarz Architects, Inc.

### David M. Schwarz Architects, Inc.

The David M. Schwarz Architects Charitable Foundation has had another productive year of generous giving. Here are some of the highlights of our contributions for 2016:

For the seventeenth consecutive year we again funded our firm's Traveling Fellowship program for four architecture students attending Catholic University of America, University of Maryland, University of Notre Dame and Yale University. The award allows students to travel to a place of their choosing for architectural study and each Fellow also spent a ten week period working in our office over this past summer.

We organized and sponsored our eleventh annual gathering of professionals from the local building industry community to construct Gingertown. This year's theme was Gingertown London and included confectionary renditions of well-known London landmarks, such as "House of Peppermint" and "St. Pez's Cathedral". The completed Gingertown was divided and shared with several local charities, including Children's National Medical Center, Saint Elizabeth's Hospital, So Others Might Eat, Family Matters and The Wendt Center for Loss and Healing. Contributing sponsors included DAVIS Construction, Page Southerland Page, and Walter P. Moore.

The space for build out and display was donated by The JBG Companies. We collected well over \$20,000 that will be given directly to the charities mentioned.

Our talented staff continued their support of local architecture education and mentoring. During the spring semester, a group of DMSAS employees visited Mrs. Carpenter-Nickens' 7th grade art class every week as part of Washington Architecture Foundation's Architecture in the Schools program. Our volunteers crafted a lesson plan that integrated with the student's curriculum of Greek history and art. The class applied their lessons at the end of the program by building a number of different Greek temples.

Following the success (and fun!) of this effort, we were asked by the District Architecture Center to plan and host a model making work shop for local children. Focusing on 10-13 year olds, a group of DMSAS volunteers created a 'kit of parts' for our participants to use in creating their own DC neighborhood. Including both exterior elevations and internal floor plates, groups of kids combined their scale models to form a collection of row houses.

Beginning in late March, DMSAS hosted a student through the Washington Architecture Foundation's Design in Action initiative. The program pairs local high school students interested in the architecture profession with participating firms. Eric Horsley, a junior from Phelps ACE High School, spent his spring break shadowing staff, learning about the process of building design, and working with a number of design and rendering tools. Eric worked on a design challenge with guidance from our staff, which he presented at the end of the week during a reception at the District Architecture Center.

### DAVIS Construction

Founded in 1966, DAVIS Construction offers unrivaled expertise in general contracting, construction management, preconstruction and design-build services in the Washington, DC area. Consistently ranked as an industry leader both nationally and locally, DAVIS was most recently recognized by *ENR* as Contractor of the Year and by the *Washington Business Journal* as one of the area's "Best Places to Work" for the tenth consecutive year, earning the first-ever "Decade of Excellence" award.

April of this year marked DAVIS Construction's 50th anniversary. With much to celebrate and reflect on, few things have been more meaningful than the strong relationships we've established with local community partners over the years. We understand the importance of giving back, and our 50th year was no exception. In addition to DAVIS' continued financial support and extensive in-kind donations, our employees contributed 1,400 hours to over 100 organizations and philanthropic initiatives throughout 2016.

"It's been an extraordinary year for us. Supporting our community neighbors and friends has always been a priority at DAVIS. We've come a long way over the past 50 years, but we wouldn't be where we are today without those bonds, without those strong partnerships," said Jim Davis, President + CEO.

### Washington Project for the Arts Gala Space Build-Out

In the spring, we partnered with Washington Project for the Arts (WPA), whose annual gala was being held at one of our ongoing project sites. To prepare the space for the gala, we – along with design and subcontracting partners – provided and installed lighting, gallery walls, and air conditioning units for the event at no cost to WPA, amounting to \$15K worth of in-kind donations. Having worked directly with WPA throughout the project, DAVIS Project Manager, Cotter Spratley, said, “They were a great organization to work with. The 2016 gala was very successful and we look forward to working with them again soon.”

### Golfing for National Parkinson Foundation

DAVIS’ 3rd Annual Charity Golf Tournament was held in September with over 100 participants representing 35 subcontractor and industry partners. With the help of our generous sponsors the tournament was a huge success, raising over \$65,000 to benefit the National Parkinson Foundation (NPF). Retired DAVIS Benefits Manager, Stephanie Stull, was on hand to present the check to NPF on behalf of DAVIS. This cause was especially personal and important for us, as Stephanie was diagnosed with Parkinson’s disease 14 year ago while still working at DAVIS, and is actively involved in NPF efforts throughout the DC region. Matt Weirich, Vice President at DAVIS and Chair of the tournament said, “I enjoy organizing this every year. It’s nice to see everyone come together for a day of fun, but more importantly, come together to support a great cause like NPF. This year was particularly special because it was also about supporting a DAVIS family member.”

### Families of Jubilee

We were proud to partner with our long-time friends at Jubilee Support Alliance again this year. We provided financial sup-

port and DAVIS employees volunteered time for many Jubilee initiatives including the Jubilee Wine Tasting, Jubilee to College and Back to School Store. Most recently, we provided holiday gifts for 12 families through the Jubilee Housing Wish List initiative and also volunteered for the Elf Store, which provides children of Jubilee Housing the opportunity to buy gifts for their family at a significantly reduced cost. Volunteers were on hand to help 100 children buy and wrap gifts that will make their way to more than 500 family members this holiday season.

### Samaritan Inns Fundraising Breakfast

President and CEO Jim Davis, and Mike Alto, Senior Vice President of Clark Construction Group, teamed up for the third year to co-host the Samaritan Inns fundraising breakfast on December 8th held at the Women in Military Service For America Memorial. The money raised benefits the Samaritan Inns’ Campaign for Hope – which will expand services that the organization provides to helping people and their families recover from the agony of addiction and homelessness.

“Building community is where our heart is, and long standing partners such as Jubilee enable us to engage our entire company in our CSR program,” said Louise Boulton-Lear, DAVIS Vice President, Integrated Marketing Communications and Jubilee Board member.

### Nourish Now: Feeding Montgomery County

Additionally, 2016 also marked the beginning of several new community partnerships. We provided time and in-kind donations to Nourish Now of Rockville whose mission is to alleviate hunger in Montgomery County, MD. By collecting unused fresh food and redistributing to dedicated food donors throughout the area, they are able to help feed thousands of residents who are in need.

“We’re so excited to partner with Nourish Now to give back to our local community! As a company, we’re looking forward to continuing our work with them throughout the coming years,” said Jennifer Kessler, DAVIS Director of Human Resources.

For more information visit [davisconstruction.com/page/community-or-commercial-building-our-business](http://davisconstruction.com/page/community-or-commercial-building-our-business).

### Donohoe Construction Company

Family-owned and operated, Donohoe Construction Company (“Donohoe Construction”) is one of the leading general contractors exclusively serving the Washington, DC Metro area.

## Members Give Back

Donohoe Construction Company

Donohoe Construction Company

Donohoe Construction Company

Donohoe's diverse construction expertise includes multi-family residential, office, hospitality, senior living, mixed-use, interiors, parking garages, and higher-education projects. Continued growth and success reflects Donohoe Construction's steadfast commitment to superior service and uncompromised integrity. For more information, please visit [www.donohoe.com/construction](http://www.donohoe.com/construction).

### JDRF Real Estate Games

Donohoe joined the DC real estate community in June at the 27th annual JDRF Real Estate Games. The field day-like charity event was held at American University to support the Greater Chesapeake & Potomac Chapter of the Juvenile Diabetes Research Fund.

### Rebuilding Together

Donohoe participated in Rebuilding Together's National Rebuilding Day on Saturday, April 30th. Team Donohoe supported and coordinated a home renovation effort in Rockville, MD, where 65 employees helped with painting, clean up, electrical work, yardwork and other small repairs.

### Food for Others

Donohoe organizes two food drives around the holidays and this year Team Donohoe supported Food for Others in Northern Virginia by providing them with turkeys, hams, non-perishable goods and a monetary donation.

### Toys for Tots

Donohoe collected new, unwrapped toys for children and donated them to Toys for Tots during the month of December.

### Forrester Construction

Forrester Construction's Community Involvement Committee is led by team members dedicated to helping to build a stronger, more vibrant community. Our mission is to create, maintain and support community programs in the DC Metro area that foster an interest in the construction industry, empower tomorrow's leaders and support the health and wellness of under-resourced residents.

2016 was another successful year for the Community Involvement Committee and our dedicated team members. Here are some highlights:

### Toys for Tots

Our first time participating in the Toys for Tots drive was a huge success! Forrester's main office and jobsites competed to see who could collect the most donations. Our haul included a child's bike and a 4-foot-tall Darth Vader!

### Wreaths Across America

Forrester once again partnered with Wreaths Across America supporting efforts to honor all of the service men and women interred at Arlington National Cemetery. This effort is an ideal way to show Forrester's support for those who have served, and demonstrates our pride in having been selected as the builder of the Millennium memorial complex. Our team has joined in this effort for the past three years and participates in both the wreath laying and removal.

### Race for Hope

Each May, Forrester sponsors runners and walkers in the Annual Race for Hope 5K, a fundraiser to benefit the National Brain Tumor Society. Team members and their families walked and ran for a cure, supported survivors of brain tumors, and raised funds for research.

### Community of Hope

As part of Forrester's ongoing relationship with Community of Hope, team members hosted a birthday party for children living in their Girard Street facility. Music, games, craft projects and birthday treats were highlights of the event. Our interns also supported Community of Hope for the second year by involving children in the organization's transitional housing program in hands-on activities designed to spark interest in construction and engineering careers. Our team also held a school supply drive to support their efforts to provide kids with the materials they need to start the school year off right.

# THE ENERGY BEHIND YOUR POWER.

We're proud to support the Washington Building Congress,  
and to provide safe, reliable energy to more than 842,000  
customers in the District of Columbia and Maryland.

An Exelon Company

## Members Give Back

### Interfaith Works Wilkins Avenue Women's Shelter

To kick off the holiday season, our team prepared and served a homemade meal to residents of the Wilkins Avenue Shelter in Rockville. Our taco bar was a huge hit, as was the cookie decorating station manned by our youngest volunteers.

### Professional Clothing Drive to Benefit A Wider Circle

A Wider Circle's efforts to end poverty include a comprehensive professional development program, including a "store" filled with professional attire. Our team collected new and gently used clothing, shoes, belts and briefcases to aid in their efforts to help adults preparing for employment look and feel their best.

### ACE Mentoring Program

For the past four years, Forrester has been part of the ACE Mentoring program. Our team has sponsored chapters at both McKinley Tech and the IDEA Pubic Charter School, where we have engaged high school students in hands-on activities designed to spark an interest in construction, engineering and architecture. Students benefit from close relationships with mentors, field trips, engaging activities and opportunities to learn more about AEC careers. With their mentor's guidance, students also design and present a cumulating project showcasing what they have learned to the broader ACE organization and industry professionals.

### Jingle Bell Jog

Forrester team members once again joined YCF for the annual Jingle Bell Jog, which raised money for AGC's YCF Educational Programs.

### CANstruction

Forrester team members, aided by a monetary donation, played a part in YCF's contribution to the CANstruction event, a yearly design competition that raises awareness of hunger and provides local food pantries with donations of canned goods.

### The JDRF Real Estate Games

Each year, Forrester involves team members, including our summer interns, in a day of athletic competition to raise money for JDRF—the leading global organization funding type 1 diabetes research.

### Gilbane Building Company

Gilbane Building Company is a 142 year-old, family-run, full-service construction operation providing clients with a variety of services in markets such as education, commercial, and health-care. Our mid-Atlantic headquarters is located in Arlington, VA, with additional offices in Baltimore, MD, and Richmond, VA. While our business involves strengthening the communities around us through infrastructure, our goal is to strengthen those same communities through volunteerism, corporate giving and meaningful partnerships. Our team is dedicated to contributing to the overall quality of life in all the communities we call home through active involvement in many charitable, educational, and local organizations. We encourage and support every single

Forrester Construction

Forrester Construction

Forrester Construction

Forrester Construction

team member to care and get involved, with the ultimate goal of stronger communities throughout the world.

This year, Gilbane and its employees have dedicated their time, money, and resources to making the region a better place to live and work. From running 5Ks to donating toy to mentoring future engineers, Gilbane has striven to put our core values to work and make a difference in the communities where we work, live, learn, and play. A huge part of that is our involvement with the ACE DC Mentor program throughout the year. In 2016, Gilbane's mentors helped to develop high school students' passions in S.T.E.M. careers and gave them the tools to pursue those passions after they graduate. In Richmond, Gilbane employees working at Virginia Tech raised over \$13,000 to support the First Robotics Copperhead Team of Montgomery County Schools and the New River Valley Community College. The donation was used to continue engaging students in programs that build science, engineering and technology skills.

In addition to supporting S.T.E.M. programs throughout the region, Gilbane works with industry organizations and local leaders to help improve our local community. Our project

teams find ways to impact their communities, such as working with the head doctors and nurses at Children's National Medical Center to provide donated toys to the units under renovation. We've found that even small donations can make a big impact. Our Baltimore office held a chili cook-off to collect donations for the Baltimore City Public Schools. The \$325 collected went directly towards helping a client and a community in need. Furthermore, Gilbane has been actively involved with the Department of Small and Local Business Development (DSLBD) to assist Certified Business Enterprises (CBE) grow their companies and gain access to greater contracting opportunities. In Richmond, Gilbane supports the local community by hosting an annual Restaurant Walk to support The Doorways (previously Hospital Hospitality House) and has raised more than \$200,000 over the past 10 years! Our annual golf tournament, held in Maryland, raised over \$10,000 for the Ulman Cancer Fund for Young Adults (UCF). Our partnership with UCF continues to evolve. Gilbane is working with UCF during the holiday season to sponsor a cancer patient for Christmas 2016. Other yearly events include Christmas in April, Jeans for KEEN, Charity Bowling Event, John's Hopkins Univer-

sity Corporate FunRun, donations to Sarah's House, Wreaths Across America, and the JDRF Games.

### Hensel Phelps

Hensel Phelps is a premier full-service facilities solutions provider. We are committed to delivering the highest quality solutions, and creating the most efficient facilities for our clients, from the conception of a project through construction, operations, and asset management. From planning and design, to construction and facility management, Hensel Phelps works to solve our clients' challenges from start to finish, and beyond. We are a global company with a local community presence. Our clients experience our deep commitment to quality and efficiency, as well as our sincere interest in the success of their business, and the communities we serve.

Hensel Phelps is proud to give back to the communities in which we live and work. Over the past 78 years, we have supported countless communities and charities across the country, donating both time and money to help those less fortunate thrive.

Hensel Phelps opened its Washington Metro Area office in 1996 and is an active, charitable member of the District of Columbia, Northern Virginia, and Baltimore communities. In 2016, our company supported dozens of local organizations in DC and the surrounding areas, working approximately 2,350 hours and donating over \$270,000. The following is a sample of the events Hensel Phelps employees and their families have participated in over past year:

#### ACE Mentorship

A proponent of S.T.E.M education in schools, Hensel Phelps has dedicated 500 hours annually to promoting Architecture,

Engineering, and Construction at Maryland and Virginia high schools.

### **Marian Homes**

For the past several years, Hensel Phelps has worked with Marian Homes, an organization based out of Fairfax, VA, which provides specialized group homes for those facing physical or intellectual disabilities. This year, the organization purchased its fourth home and asked for Hensel Phelps' assistance in converting the home into an appropriate group facility. To do so, our team of volunteers performed all the necessary site, placement/installation, painting, and cleanup associated with the installation of a new concrete handicap ramp.

### **Ardmore Elementary School**

Living Sciences Courtyard Hensel Phelps worked with a local elementary school in Prince George's County, MD, to upgrade the school's courtyard, installing an eco-educational pond and native landscaping features. Not only did this change beautify the children's surroundings, but it also serves as an outdoor classroom providing the students insight on sustainability and the local ecosystem.

### **So Others Might Eat (SOME)**

For several years, Hensel Phelps has partnered with many of its vendors to provide meals for the homeless in our nation's capital. In 2016, Hensel Phelps prepared and served over 850 meals on two separate occasions.

### **Southern Virginia Projects**

While many of our projects are in the Washington, DC Metro Area we have a large project being constructed in Southern Virginia, with many of the staff members living in Northern North Carolina. The project staff has taken it upon themselves to make an impact in their communities. The team has held food drives to ensure the Clarksville Food Pantry remains stocked, cleaned up Oconeechee State Park, provided demolition relief efforts to homes effected by Hurricane Matthew, and built a much needed pavilion to provide shade from the sun at a local elementary school. Additionally, the group donated toys for 400 families in Mecklenburg County, VA, the largest single donation on behalf of a company in the programs history.

## Members Give Back

### Annual Toy Drive

Once again this year, Hensel Phelps collected, wrapped and delivered toys for 110 children to three local charities in 2016 including: Our Neighbor's Child (Chantilly, VA), Calvary Episcopal Church (Washington, DC), and the St. Francis Neighborhood Center (Baltimore, MD).

At Hensel Phelps, we can say with confidence that our people truly make the difference. We would like to take this opportunity to thank our employees for their hard work and dedication. You are truly the heart behind our organization, and without you none of this would be possible.

### HITT Contracting Inc.

HITT Contracting Inc., a national general contractor headquartered in Falls Church, VA, counts Community Contributions among the five core elements of our corporate responsibility program. We see value in enriching the lives around us—and in turn, our own lives—through service and support. As we strive to be good corporate citizens, we continue to give back to those around us.

This year we gave our time, money, and resources to important causes close to our heart, improving the quality of life for many deserving members of the communities in which we do work.

### Shelter House

HITT partnered with Shelter House, a community-based, non-profit organization serving homeless families in Fairfax County, on several initiatives throughout the year. We are incredibly proud of the relationship we've built over the last year with this organization, supporting their mission to provide crisis intervention, safe housing and supportive services to promote self-sufficiency for homeless families and victims of domestic violence.

This summer, our team of interns tackled interior renovations of some of three separate apartments at their Patrick Henry shelter. Together they deep cleaned each unit, gave them a fresh coat of paint and updated the decor.

Later on in the year, our IT team donated over 50 computers and keyboards to the organization. These laptops, desktops, docking stations, monitors, and mouse/keyboard allowed Shelter House to create a new computer lab in the Patrick Henry location where children can complete homework and get additional educational assistance, and adults can continue to build their own skills.

Several individual teams also lent a hand at Shelter House during the year, including our Corporate Accounting team that raised \$500 to purchase supplies for a Back to School drive, and hosted an event for children at Shelter House to play games.

We closed out the year with a gift drive to give each child at Shelter House the gift they requested. Our team members rallied to purchase, wrap, and deliver 152 gifts. Not only were gifts purchased and wrapped based on each child's wish list, an additional 800 Hygiene items were collected to support the health and wellbeing of residents and their families.

HITT Contracting Inc.

HITT Contracting Inc.

HITT Contracting Inc.

### Lily's Playground

Led by our Law Firms sector, a group of HITT team members completed a very special project for a young lady from Make-A-Wish® Mid-Atlantic who suffered from a heart defect that required multiple surgeries and an eventual heart transplant.

With help from HYL Architecture, the team created an indoor play space where this little girl could run and play just like other boys and girls her age.

The team met with her and her family to plan and design the space exactly to her specifications, and came together a few months later to build and create her play place in the family's basement.

The final product was enchanting, featuring a swing and slide, as well as a magical tree and a beautiful mural surrounding it all.

### eWaste Drive

During the month of April, we held an e-waste drive at our headquarters, inviting our employees and subcontractors to donate their old and broken electronics to be reused or recycled.

When it was all said and done, the drive collected a total of 3,998 pounds of electronic waste (almost 2 tons!), all of

which was processed smoothly and securely by the team at eAsset Solutions.

### Food for Others

This September, several of our team members gave time, energy and canned goods to Food for Others, a local organization devoted to distributing free food to neighbors in need in the Northern Virginia area.

Established in 1995, the organization acts as a safety net to provide food during emergencies, as well as a day-to-day resource to feed the working poor. The majority of their food is generated through food drives and food rescue operations, which involves picking up unused food from local grocery stores and retail food establishments.

Our teams opted to help with their food drive efforts, generating 631 pounds of non-perishable food items that Food for Others could share with those in need. Team members also participated in the organization's 5K run to raise additional funds for their cause.

### CANstruction

Working with Dewberry, we created a can sculpture for AIA|DC's annual CANstruction event. Together we created Fed Up with Hunger in homage to Disney Pixar's UP, using over 4,700 cans of food that were then donated to the Capital Area Food Bank.

Beyond these causes, HITT actively supported many other causes including Project Prom, Inova Life with Cancer, Children's National Medical Center, the Leukemia and Lymphoma Society's Light the Night Walk, and Higher Achievement's Going Places Gala. We also held a Women's Health Awareness event in October, hosting a happy hour then netted much needed funds for Breast Care for Washington, DC.

As we look ahead to our 80th year, we're eager to give even more to the communities that have supported our growth through these last eight decades.

### Insurance Associates

Founded in 1956, Insurance Associates is an independent insurance agency serving the Mid-Atlantic region with offices in Rockville, Fairfax, Laurel, and Towson. We are a locally owned company that prides itself on having one of the most competent, experienced, and passionate workforces of any agency in the area. We advocate for our clients across a diverse range of products and services including Surety Bonding,

Insurance Associates

Commercial Insurance, Employee Benefit Plans, Personal Insurance and Life Insurance.

This past summer Insurance Associates supported The Home Builders Care Foundation and The Rainbow Place in Rockville by helping them paint the Presbyterian Church. The church is used as a winter emergency overnight shelter to women experiencing homelessness. We capped off the event by presenting them with a \$250 visa gift card that they can use to further their mission.

In October our agency focused on raising awareness for breast cancer. We held potlucks, corn hole tournaments, bake sales, and dress down days all to raise money for a family in need. All four of our offices came together, and in total our employees donated in excess of \$4,000 to this important cause. We also had nine employees plus their families participate in the Prevent Cancer 5K at National's Stadium in September.

For the second year in a row our agency has been volunteering at Food for Others in Fairfax, VA. Each month we have about 10 volunteers go to the warehouse and sort/shelve food, pack boxes, help clean, and really do any task that is needed!

### Kelly Electric

A family owned business for over 34 years, we have dedicated ourselves to prompt, professional service, and to workmanship of the highest quality. We undertake difficult and unusual electrical construction projects, and complete them on time to achieve great customer satisfaction. We aim to provide superior service, to make honest business dealings a part of our daily work ethic, and to stand behind our work 100%. Our goal is to provide the highest level of customer satisfaction while maintaining a competitive pricing structure.

Kelly Electric is involved with the following charitable Activities:

## Members Give Back

### Christmas in April

Christmas in April is a non-denominational volunteer organization that repairs the homes of senior citizens who are either low-income and/or physically challenged so they may live in warmth, safety, and independence. After months of planning and preparation, Christmas in April culminates in a one day repair effort on the last Saturday in April.

Christmas in April relies on the community for support from volunteers to repair the homes, and seeks funding from businesses, corporations and individuals. The success of Christmas in April is due to the cooperative efforts of County government, private businesses, civic and community organizations, churches and synagogues.

### Warrior Events

Warrior Events was founded in 2009 by John O'Leary whose passion was and is to give back to our military in a very respectful way and to know how much they and their loved ones are appreciated for their immense sacrifices. We are very fortunate that Warrior Events is located in Annapolis, MD, which is very close to the Walter Reed National Military Medical Center in Bethesda, MD, where those who we assist are currently going through therapy. [www.warriorevents.net](http://www.warriorevents.net)

### Redskins Charitable Event

The mission of the Washington Redskins Charitable Foundation is to utilize the assets of the Washington Redskins and its corporate and community partners to make a positive and measurable impact on youth development in the greater Washington, DC region in the areas of education, community outreach, and health and wellness. The Foundation is led by Dan Snyder, Mike Shanahan, Bruce Allen and a large team of dedicated members of the community who are committed to making a positive impact in the DC region.

### Lendlease

Lendlease has participated in several charitable events this year. In the Washington, DC area, Lendlease participated in:

#### Guiding Eyes for the Blind

Volunteers escorted trainers and their pups through the Smithsonian Institutes' National Air and Space Museum's Udvar-Hazy Center. Guiding Eyes for the Blind train's puppy's to serve as guide dogs for people with vision loss. This annual event not only helps the pups learn to navigate a crowd but is also an opportunity for the security and staff at Smithsonian to ask questions with regard to training and to understand the guide dog process.

#### Capital Area Food Bank

Volunteers worked with the Capital Area Food Bank sorting and packing food for senior citizens and children. The Capital Area Food Bank is the largest organization in the Washington metro area working to solve hunger by partnering with 444 community organizations in the DC, MD, and VA area,

Lendlease

Lendlease

and delivering food directly to hard to reach areas. They help 540,000 people each year.

#### Adopt-a-Road

So far this year, volunteers have cleaned a one mile long section of Dufief Mill Road three times this year, collecting a total of three large contractor bags of trash and three bags of recycling.

#### Boy Scouts of America

Lendlease helped the Rockville Scout Pack 943 raise 5,400 lbs. of food for needy families this holiday season.

#### Toys for Tots

Lendlease once again participated in collecting toys for the Toys for Tots program.

#### PerLectric Inc.

PerLectric Inc. participated in Clark Construction's BOWL-ATHON in support of Junior Achievement of Washington, and gave financial contributions to several local charities including Junior Achievement of Washington, Team River Runner, Operation Second Chance and The Life Church of DC.

#### Pizzano Contractors Inc.

Much of Pizzano's charitable efforts are conducted through the Joey Pizzano Memorial Fund (JPMF). This is an organization founded in the memory of Joey Pizzano, one Robert Pizzano's eight children, who died in a drowning accident. The fund was created to honor Joey's love of water and to provide water safety education for children with special needs. JPMF designed, built and subsequently donated "Our Special Harbor Sprayground" to Fairfax County, with the condition the park always offer

### Shapiro & Duncan

"Our People Serve the Community," is one of Shapiro & Duncan's five core values. This commercial mechanical contractor based in Rockville, MD, has been serving the local DC Metropolitan community for over 40 years. All employees are encouraged and supported in all facets of community and industry outreach. Below are a few projects we worked on over the past year:

#### College Career Days

S&D mechanical engineers spoke to a class at the University of Maryland on topics such as construction management and sustainable design, building information modeling, sustainable design and construction parameters and methods, post construction maintenance issues and prefabrication. In addition, our Vice President of Business Development, Project Manager and Foreman gave the American University Washington College of Law a tour of their new campus and an explanation on how their mechanical systems were built and installed. Weeks later, the students were invited to our Fab Shop in Landover, MD, to learn about project management, contracts, work ethic and collaboration. Our Vice President of Business Development also spoke to the students in the Hillman Entrepreneur-

ship Program at The University of Maryland about the value of career related internships and the opportunities for success in the construction industry.

#### Middle & High School Career Days

Shapiro & Duncan's Business Development team spoke to six classes of 6th graders at Sligo Middle School in Silver Spring, MD, on careers in construction and also two classes at Gaithersburg High School as well as two classes at Reservoir High School and Wheaton High School. The career day presentation was created to help workforce development in the construction industry; and to change the perception that all careers in construction are "work hard." It includes career paths students can take after high school whether it be an apprenticeship, 2 or 4 year degree, and highlights all of the new innovations and technology that has been developed in our industry. In addition, employees volunteered to speak to students at Luke C. Moore Academy in Ward 5 Washington, DC, about apprenticeship programs.

#### Junior Achievement

Over 40 employees and vendors participated in a Junior Achievement Bowl-a-Thon that raised close to \$12,000 for financial literacy programs. Eighteen Shapiro & Duncan volunteers then paired up in groups of two to teach students at Banneker Middle School in Burtonsville, MD, on topics that covered budgets, credit cards, credit scores, and insurance. Employees volunteered over 200 hours in total between lesson planning and instruction.

#### Manna Food Center

This past summer, Shapiro & Duncan's young professionals partnered with ABC's XYZ group to help volunteer to week and pick tomatoes, beans, peppers, eggplant, carrots, and potatoes to help crush hunger in Maryland. In November, employees donated 216 lbs. of canned food to the same organization, Manna Food Center.

#### Children's National Medical Center

Shapiro & Duncan has been donating to CNMC since 2005 and raised \$47,167 in honor of one of our Project Executive's son. Our goal this year is to beat the \$50,000 mark at our Holiday Breakfast in December.

## Members Give Back

### Employee Donations

Shapiro & Duncan employees donated over \$16,000 to three of their co-workers suffering from hardships, such as cancer, that would put them out of work for more than 3 months to a year.

### The Big Build

Eleven employees volunteered at the National Building Museum for the Big Build Event in October and set up a workshop of activities that over 5,000 kids can participate in, all while promoting careers in construction.

### Team River Runner

Each year Shapiro & Duncan sponsors a National Veteran Boat to help assist with the recovery of those injured while serving our country through paddle sports.

### Identity

This year Shapiro & Duncan was recognized at the Montgomery County Hispanic Heritage Awards sponsored by Telemundo

for their work with Hispanic community, more specifically with Identity, an organization that assists more than 3,000 in-school and out-of-school youth and their families who live in high-poverty areas of Montgomery County. Our safety director serves as their Outreach and Engagement Coordinator and works nights and weekends to help mentor and empower Latino youth.

### Testimony of S&D Project Manager to Committee on Education and Workforce

This year Shapiro & Duncan Project Manager, Paul Tse, testified to the U.S. House of Representatives Committee on Education and the Workforce about the value of Career and Technology Education Programs to help the House pass the “Helping Students Succeed by Strengthening the Carl D. Perkins Career and Technical Education Act.”

### Toys for Tots

Shapiro & Duncan hopes to collect over 150 toys for Toys for Tots at their Annual Holiday Breakfast on Dec. 16th. 

Thanks everyone for your support of **Turning the Page!** This year, WBC members and their guests donated over 710 high-quality children's books.

## Member Projects

**WCS Construction, LLC** announced that **Park Chelsea at The Collective** has achieved a LEED for New Construction v2009 Silver Certificate this past October. At the intersection of elegance and opportunity rests the award winning, Park Chelsea at The Collective, phase 1 of a 3 phase project ultimately containing over 1100 units. A 13-story multifamily residential building with extensive amenities consisting of 429 units with one 550 square foot retail space and three subterranean parking levels that provide one space for every unit.

Carrying a wide range of sustainable features, the HVAC system in the units utilizes water source heat pumps. The condensing water is also used for the roof top units that condition common areas on the unit floors. These RTUs also furnish fresh air for the entire building. The ground floor HVAC design uses variable refrigerant flow (VRF) heat pumps and their water cool condensers are located on the parking level below. The approximate one acre footprint of the building is covered by a mat slab that is 5' thick for most of its expanse. A three story cistern was designed as part of the parking structure. Water is retained then reclaimed, filtered and pumped up to the roof to be used as make up water for the cooling tower. The diesel backup generator resides on the upper most parking level breaching into and up the exhaust shaft that is also used to provide make up air for the generator. Located two blocks from the Navy Yard Metro Station and one block from bus routes, Park Chelsea tenants have easy access to transit. Building residents can also take advantage of reserved bike parking.

In addition to eco-friendly features, Park Chelsea has top quality design, finishes and appliances, as well as abundant amenities on both the 37,000 square foot ground floor; (one of the largest in the metropolitan area) featuring extensive stonework, high level millwork and the roof with panoramic views of the DC skyline. A lap pool, large fitness facility, yoga, café, catering kitchen, gaming, meeting, library, and garden rooms are on the first floor that also houses the Collective's Leasing Center. The roof contains a tiled pool, covered open living
